Not long ago, Comstock, 46, was running marketing at General Electric; we have her to thank for "ecomagination." She moved to GE's NBC Universal unit 18 months ago, and just got a new gig that combines ad sales and digital media across the TV network, cable channels, and film studio. Want to stream Heroes, read the interactive novel, then bid online for artwork from the show? Thank Comstock for all that, too. The economics of television used to be simple. Do you understand how to make money today, when I can watch 30 Rock pretty much anytime? We understand it a lot better than we used to. Digital media allow us to open up new windows without the cannibalization you might expect. So yes, we can offer 30 Rock in preview, then on-air, then streaming, then iTunes, then mobile, and then syndication. We've done the modeling. It looks like we'll make more money. How do advertisers reckon with this new world? Some know what they want, some less so. But now, every marketer is doing digital, not because it's trendy, but because they have to. Buying groups have created units called "sight, sound, and motion" [to work across media]. They expect us to zero in on targeted consumers: What do we know about them, and how do we reach them? How are viewing habits changing? We've had 60 million streams [of TV shows] at NBC.com. A lot of those are repeat viewers. Others are time-shifting. They're place-shifting, too, with iTunes or on phones. And does that work for you? It has to. If consumers are in control, they're going to figure out how they want to watch. We have to find the right solution. What's the next new thing? More personal expression [by viewers], the desire to be involved in the storytelling. Like, SMS-text to vote in a reality show, or watch Heroes and dial a phone number. That stuff is so rudimentary; we'll look back one day and say, "We were so cute then!" All this implies huge cultural change. How is NBC Universal coping? This space is frenetic and chaotic, and we're constantly trying to get out of our own way. With success, you get a bit more confident. But we still have to be more focused and more disciplined. Are you still, as you once said of yourself, "frickin' impatient"? Yes. And I'm fearful. I'm constantly scanning the landscape. What's the next new thing? Who's going to get there first? This business is hypersensitive like that. You have to pick a path, keep to it, and feel good about it. Second-guessers will end up with more than ulcers. Contact Arkadium, the provider of these games! This puzzling new word game combines a word search with a jumble. Find famous film titles, phrases and more! If you are an English-speaker, you already know more German than you may realize. English and German belong to the same "family" of languages. They are both Germanic, even though each has borrowed heavily from Latin, French, and Greek. Some German words and expressions are used constantly in English. Angst, kindergarten, gesundheit, kaputt, sauerkraut, and Volkswagen are just some of the most common. English-speaking children often attend a Kindergarten (children's garden). Gesundheit doesn't really mean "bless you," it means "health"—the good variety being implied. Psychiatrists speak of Angst (fear) and Gestalt (form) psychology, and when something is broken, it's kaputt (kaput). Although not every American knows that Fahrvergnügen is "driving pleasure," most do know that Volkswagen means "people's car." Musical works can have a Leitmotiv. Our cultural view of the world is called a Weltanschauung by historians or philosophers. Zeitgeist for "spirit of the times" was first used in English in 1848. Something in poor taste is kitsch or kitschy, a word that looks and means the same as its German cousin kitschig. (More about such words in How Do You Say "Porsche"?) By the way, if you were unfamiliar with some of these words, that's a side benefit of learning German: increasing your English vocabulary! It's part of what the famous German poet Goethe meant when he said, "He who doesn't know foreign languages, doesn't know his own." (Wer fremde Sprachen nicht kennt, weiß auch nichts von seiner eigenen.) Here are a few more English words borrowed from German (many have to do with food or drink): blitz, blitzkrieg, bratwurst, cobalt, dachshund, delicatessen, ersatz, frankfurter and wiener (named for Frankfurt and Vienna, respectively), glöckenspiel, hinterland, infobahn (for "information highway"), kaffeeklatsch, pilsner (glass, beer), pretzel, quarts, rucksack, schnaps (any hard liquor), schnuss (skiing), spritzer, (apple) strudel, verboten, waltz, and wanderlust. And from Low German: brake, dote, tackle. In some cases, the Germanic origins of English words are not so obvious. The word dollar comes from German Thaler — which in turn is short for Joachimsthaler, derived from a sixteenth-century silver mine in Joachimsthal, Germany. Of course, English is a Germanic language to begin with. Although many English words trace their roots back to Greek, Latin, French, or Italian, the core of English — the basic words in the language — are Germanic. That's why it doesn't take too much effort to see the resemblance between English and German words such as friend and Freund, sit and sitzen, son and Sohn, all and alle, flesh (meat) and Fleisch, water and Wasser, drink and trinken or house and Haus. We get additional help from the fact that English and German share many French, Latin, and Greek loan words. It doesn't take a Raketenwissenschaftler (rocket scientist) to figure out these "German" words: aktiv, die Disziplin, das Examen, die Kamera, der Student, die Universität, or der Wein. Learning to use these family resemblances gives you an advantage when working on expanding your German vocabulary. After all, ein Wort is just a word. Contact Arkadium, the provider of these games! The mind is a curious being — re-sorting the letters via the toggle at the bottom-left of the game will frequently reveal words that you have previously not seen. Good luck, and we hope you enjoy playing this free online word scramble game! You may have heard the expression “Word up,” which likely originated in hip-hop. Looking at its meaning — which is to convey agreement, acknowledgment, and approval with enthusiasm — gives us pause to think What about our word? In reality, when it comes to communicating who we are, all we have is our word. So what power are we giving it? What placement? How are we delivering our word through our businesses? We've all experienced a disconnect between the words we want to convey to our clients and customers and the words that reside inside of us. In the simple but profound book “The Four Agreements,” author Don Miguel Ruiz reminds us to be impeccable with our word, using its power for truth and love. Our challenge becomes finding the best means to express and deliver our message in our “voice,” while also making sense, keeping ourselves visible, and creating value among those with whom we share our words. Consider the newsletter as a tool to achieve that goal. More and more in our work/life we see the need for relationship-building, networking, sharing news, and building community. Businesses from sole proprietorships to established corporations are using newsletters as a marketing tool to accomplish those ends. A newsletter keeps you in front of clients, prospects, and colleagues; gives you a platform for sharing your focus; and helps you clarify your point of view. Newsletters also work to get employees, distributors, sales reps, and news media excited about your service or brand. Add to it the fact that newsletters are easily forwarded and archived, interactive, and have low variable cost. Done right, newsletters are a perfect and inexpensive way to market your business. Granted, carving out the time to create a newsletter may seem difficult and the actual task of writing them may appear daunting. So don't go it alone — look to the experts. Joan Mansbach, an award-winning writer/marketing consultant with consumer lifestyle expertise, writes newsletters for clients and provides an easy, one-stop solution. You can take care of both the writing and distribution to your database of the complete package. Thanks to technology and a variety of creative templates, newsletters can be created to graphically reflect our businesses and services in color and design. Dianne Coles, a leading New York image consultant, had this to say: “Newsletters gave me the opportunity to connect with my clients. In turn, they shared my wardrobe tips and motivational excerpts with their friends, which resulted in several new clients for me. The newsletters actually became an effective networking outreach opportunity.” Michael Katz, author of “It Sure Beats Working,” heads up Blue Penguin Development, a service that provides customized, electronic newsletters for professional service companies. Constant Contact, an email marketing solutions resource, distributes newsletters and creates online surveys, and Published Daily is a new provider of pre-written articles and distributor of newsletters. While it's difficult to quantitatively measure the direct results of newsletters as a marketing vehicle, those who use them and receive them attest to the results. When you decide to cultivate customers via a newsletter that you are going to stick by, the seed you plant will germinate and its value will blossom in your customers' response. In these times when mega-marketing budgets are scarce, the newsletter has become the little engine that could, chugging along, building credibility, garnering trust, and delivering the goodwill of your word, as well as relevant information your clients will appreciate. Think of your newsletter as a form of networking. When your recipients choose to share it with their colleagues and friends, the viral chain begins leading to expansion of your customer base and increased referrals. The key is to keep it both succinct and helpful by sharing concise advice, thumbnail industry updates and trend data, quick tips, and other wisdom. Let your newsletter speak for you. Think too about the words of Henry David Thoreau: “Be true to your work, your word, and your friend.” Namaste, Julie Julie Sue Auslander, M.Ed, WPO, WBE President / Chief Cultural Officer cSubs | Subscriptions Simplified A Service of CSMS, LLC A Nationally Certified Women's Business Enterprise A Women-Owned Business • [www.cms-usa.com](http://www.cms-usa.com) • Ramsey, N.J.
